

All About You

Shawn Austin

I saw you walk in
I guess you got a man or something like that
But he keeps checking his phone
Like he's got somewhere to go
Like he don't even know you're there

Does he know what he has girl
Does he know you can move it like that
I can show you what he can't girl
You're better than that

If it was me, I'd be all about you
You'd be lighting up the room
I'd be dying just to show you off
If I was him
You'd get all of my attention
I'd be out there with you dancing
One two, one two
When you move, I move girl
I'd be all about you
If it was me, I'd be all about you

I see you standing alone
You don't know where he's gone
But he's out having a smoke
I gotta catch your eye
Before the end of the night
I know I'm just some random guy but

He don't know what he has girl
And know you got me in the palm of your hand
I wanna tell you but I can't girl
You're better than that, better than that

If it was me, I'd be all about you
You'd be lighting up the room
I'd be dying just to show you off
If I was him
You'd get all of my attention
I'd be out there with you dancing
One two, one two
When you move, I move girl
I'd be all about you
If it was me, I'd be all about you

I'd be all about you

If it was me, I'd be all about you
You'd be lighting up the room
I'd be dying just to show you off
If I was him
You'd get all of my attention
I'd be out there with you dancing
One two, one two
When you move, I move girl
I'd be all about you
If it was me, I'd be all about you

I'd be all about you
I'd be all about you
I'd be all about you
If it was me, I'd be all about you
