

# Hate About This Town

Shawn Austin

Water tower, sunflowers, blowing in the breeze  
River runnin' that old covered bridge where we'd meet

Every street sign, every green light, every road I'd go down  
Is everything I love about you baby and hate about this town

There's nowhere to turn where you don't cross my mind  
No place is safe inside these county lines  
Every memory that gets to me is every reason you got out  
It's everything I love about you baby and hate about this town

Every farm field every whip-poor-  
will every inch of that blue sky  
Every John Deere, dive bar beer, was just a little too small ti  
me

You had big dreams you had to leave but I had to hang around  
'Cause everything I love about you baby and hate about this tow  
n

There's nowhere to turn where you don't cross my mind  
No place is safe inside these county lines  
Every memory that gets to me is every reason you got out  
It's everything I love about you baby and hate about this town

Yeah I hate about this town

Every rooster crowin', whistle blowin' train rolling through  
Every firefly firing up tonight firin' up the thought of you

There's nowhere to turn where you don't cross my mind  
No place is safe inside these county lines  
Every memory that gets to me is every reason you got out  
It's everything I love about you baby and hate about this town  
It's everything I love about you baby and hate about this town

Every street sign  
Every green light  
Every road I go down  
It's everything I love about you baby and hate about this town
