

# In Your Dreams

Shawn Austin

I heard you been goin' out  
Diggin' round  
Seein' if I'm seein' somebody  
Where I am and what I'm doin' now  
Trying to figure out  
If I'm out here missin' your body

I told you, you were 'bout to make a mistake  
I begged you not to walk away  
I tried to my best to get you back  
Now you want me back  
Ya you want me back

In your dreams  
I'm runnin' back baby  
I'm gonna be  
There as fast as I can  
You better believe  
I'm comin' back baby  
But in reality the only thing I'm gonna be  
Is in your head  
When you're lying there lonely  
In your bed  
You know the one that you made  
Keep your regrets  
With your should've and your sorry's  
Cause the closest thing you'll ever be to here with me  
Is in your dreams

We can give this another try  
One more time  
Maybe we can work it out baby  
Go ahead and sweep your little lie  
Outta sight, outta mind, I won't mind  
Your leavin' didn't phase me

What's wrong with a second chance  
Another shot at fixin' what we used to have  
You're still thinkin' that I want you back  
But I only want you back

In your dreams  
I'm runnin' back baby  
I'm gonna be  
There as fast as I can  
You better believe  
I'm comin' back baby  
But in reality the only thing I'm gonna be  
Is in your head  
When you're lying there lonely  
In your bed  
You know the one that you made  
Keep your regrets  
With your should've and your sorry's  
Cause the closest thing you'll ever be to here with me  
Is in your dreams

In your dreams, I bet you bet I miss you  
In your dreams, I'm still holdin' on  
In your dreams, I'm still in love with you  
But in reality the only thing I'm gonna be

Is in your head  
When you're lying there lonely  
In your bed  
You know the one that you made  
Keep your regrets  
With your should've and your sorry's  
Cause the closest thing you'll ever be to here with me  
Is in your dreams  
Cause the closest thing you'll ever be to here with me  
Is in your dreams  
Cause the closest thing you'll ever be to here with me  
Is in your dreams
