

Lean On

Shawn Austin

I've been the type to hurt
Like I hurt you, babe
I see it in your eyes
Tryna hide the pain
Two A.M. fights, slammin' them doors
Me talkin' less, know you need more
We're never ever on the same page these days

But long as this old boy's heart
Keeps beating inside my chest
It's gonna be you, it's gonna be me
It's gonna be us till the end
When life's all thorns
I'll be the roses
Be those arms that always hold you
Be that steady you grow old with

I'll be your lean-on
Any night you need one
Every time he fires up that sunrise
I'm gonna be there
I'll be your dance-with
Girl I'll be your last kiss
I'll be your king without a crown
Girl, I'm gonna be there

When life's all thorns
I'll be the roses
Be those arms that always hold you
Be that steady you grow old with

As long as this old boy's heart
Keeps beating inside my chest
It's gonna be you, it's gonna be me
It's gonna be us till the end
I'll be your lean-on
