

# Over Here

Shawn Austin

I still see you sitting there in a chair  
Sipping on a red rosé  
I still feel you in the air everywhere  
You're all over this damn place  
Still got your face in my pictures  
It's making me miss ya  
Can't kill it with liquor, I tried  
Oh, if I can't forget ya  
Lord, let me be with ya  
Tonight

I wish that I was either over you  
Or you were over here with me, with me  
I wish that I was either over you  
Or you were over here with me, with me  
Either erase you from my head or get you back in bed, baby  
That's all I need  
I wish that I was either over you  
Or you were over here with me, with me

I'm still breathing your Chanel perfume  
It's like you got ya head on my chest  
I'm just missing the hell out of you  
I'm dazed and confused I guess  
Still got yo face in my pictures  
I'm dying to kiss ya  
Can't kill it with liquor, I tried  
Nobody to hold  
Baby, it's cold tonight  
Tonight

I wish that I was either over you  
Or you were over here with me, with me  
I wish that I was either over you  
Or you were over here with me, with me  
Either erase you from my head or get you back in bed, baby  
That's all I need  
I wish that I was either over you  
Or you were over here with me, with me

It's bad over here  
So bad over here  
I need to get over you  
Or get you back over here  
It's bad over here  
So bad over here  
I need to get over you  
Or get you back over here

I wish that I was either over you  
Or you were over here with me, with me  
I wish that I was either over you  
Or you were over here with me, with me  
Either erase you from my head or get you back in bed, baby  
That's all I need  
I wish that I was either over you  
Or you were over here with me, with me

It's bad over here  
So bad over here  
I need to get over you  
Or get you back over here  
It's bad over here  
So bad over here  
I need to get over you  
Or get you back over here
