

Slip

Shawn Austin

I guess I should have known
That I'd come walking in here
There you'd be, eyes on fire
Burnin' through me
I should be stronger, you should know better
But whatever let's just slip

Out the back of this bar
Straps sliding off your shoulder
For a slip, into that black car
Let me remember how those lips
Feel on mine, one more time
Come on baby, come on baby
Wreck my mind, just slip
Say things you don't mean
I'll tell you how nobody gets
Me the way you get me
Why can't you let your body slip
Back into my hands, even though
We know where it ends?
Come on baby, come on baby
Baby, let's just slip

Hearts
Hearts want what they want
Maybe we can't say there's nothing left
When you wrap your arms around my neck
Why we waiting on a last call? We're on the edge
About to fall so let's slip

Out the back of this bar
Straps sliding off your shoulder
For a slip, into that black car
Let me remember how those lips
Feel on mine, one more time
Come on baby, come on baby
Wreck my mind, just slip
Say things you don't mean
I'll tell you how nobody gets
Me the way you get me
Why can't you let your body slip
Back into my hands, even though
We know where it ends?
Come on baby, come on baby
Baby, let's just slip

Before you slip
Through my fingertips
Gimme something I can miss
Baby, let's just slip

Say things you don't mean
I'll tell you how nobody gets
Me the way you get me
Why can't you let your body slip
Back into my hands, even though
We know where it ends?

Come on baby, come on baby
Baby, let's just slip
