

## Time Alone

Shawn Austin

The second you walked through the door  
I felt something I hadn't felt before  
Just knew you'd be the girl to change the game  
Thank god that time stood still  
Cause it took awhile to find the will  
To sit down next to you and ask your name

Time spent alone with you  
Is time that I can get used to  
This time it feels how it's meant to be  
Time spent away from you  
Is time I never wanna do  
This time has brought us where we're supposed to be  
Only one thing in this world I've gotta do  
Spend time alone with you

Crazy how the time flies by  
Even when we've got all night  
Cause you kiss me like tomorrow ain't ever come  
A few weeks turned into months  
Not a moment I've regretted once  
From friends to lovers, to one day sayin' "I do"

Time spent alone with you  
Is time that I can get used to  
This time it feels how it's meant to be  
Time spent away from you  
Is time I never wanna do  
This time has brought us where we're supposed to be  
Only one thing in this world I've gotta do  
Spend time alone with you

Time spent alone with you  
Is time that I can get used to  
This time it feels how it's meant to be  
Time spent away from you  
Is time I never wanna do  
This time has brought us where we're supposed to be  
Only one thing in this world I've gotta do  
Spend time alone with you  
Time alone with you
