I am not even going to try, to put up a fight
What I feel can't be denied, it's gotta be right
From her feet up to her fingertips, too the sweet taste of her lips
I just can't get over it

I wanna wake up with her next to me
Be there when she falls asleep
Gonna say the words she wants to hear
Tell her the way I feel
Cuz I'm tired of playing hard to get
No not me I'm over it
Cuz I'm ready to go all the way, Baby

We just click, click
We just fit so right
We just click, click
Call off the search lights
Cuz I found my girl
Ain't never gon' let go of her
It don't get better than this, cuz we just...
Click, click, click, click, click, click, click, click, click we just
Click, click, click, click, click, click, click

You should see those heads turn
When she walk in the room
Hanging on her every word
I can't help it, it's true
Cuz she's got sex appeal, she keeps it real
Makes me feel like I'm on top of the woooooorld baby

I wanna wake up with her next to me
Be there when she falls asleep
Gonna say the words she wants to hear
Tell her the way I feel
Cuz I'm tired of playing hard to get
No not me, I'm over it
Cuz I'm ready to go all the way, Babyyyyyy

We just click, click
We just fit so right
We just click, click
Call off the search lights
