

# Love Me With The Lights On

Shawn Desman

You only love me with the lights on  
So I can see you with your clothes off  
Put on a show, I'll watch it all night long  
So love me with the lights on, with the lights on

I'm going mental, you're like a dream  
The way your body shakes, you're fucking with geometry  
Watching the mirror, you wanna see it too  
Diva like Mariah Carey, got me so obsessed with you

Ooh  
I taste you on my lips  
Let me take another sip  
I gotta have you  
I'm in your fingertips  
So come and flip the switch

You only love me with the lights on  
So I can see you with your clothes off  
Put on a show, I'll watch it all night long  
So love me with the lights on, with the lights on

You got me tripping, I'm falling hard  
Can feel my heart is racing like a foreign car  
You like me watching 'cause you're a star  
When you move you got that power, know just who you are like

Ooh  
I taste you on my lips  
Let me take another sip  
I gotta have you  
I'm in your fingertips  
So come and flip the switch

You only love me with the lights on  
So I can see you with your clothes off  
Put on a show, I'll watch it all night long  
So love me with the lights on, with the lights on

We're on my bed and The Weeknd is playing  
You're on your knees but we know you ain't praying  
You let that body talk, I hear what you saying  
So come on, come on

You only love me with the lights on  
So I can see you with your clothes off  
Put on a show, I'll watch it all night long  
So love me with the lights on, with the lights on

You only love me with the lights on  
So I can see you with your clothes off  
Put on a show, I'll watch it all night long  
So love me with the lights on, with the lights on

We're on my bed and The Weeknd is playing  
You're on your knees but we know you ain't praying  
You let that body talk, I hear what you saying

So love me with the lights on, with the lights on
