

Voodoo

Shawn Desman

I can't control it
She's taking over .
I can't control it
She's taking over.

I saw her body
And I don't know
Why I feel that I need to get up real, real, real close
So in the moment, so in the zone
And I'm ready to go.

The way you move your body
Can't stop lookin' at you,
There's something so hypnotic .
Making me lose control
And all that I know is

Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo
Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo

You got me just, right where you want
Some kind of trance
Don't know what, what, what's going on
You're all up on me
Like we're alone
And I'm ready to go
Fo' sure

You know the right buttons
Getting into my brain
And I keep coming back for it again & again
It's addicting (so addicting)
I just can't resist it

Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo
Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo

Oh, oh, oh, uh
I can't control it,
She's taking over
I can't control it,
She's taking over
I can't control it,
She's taking over
I can't control it,
She's taking over

(Voo doo) (8x)

Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo
Everything that you do, you do, you do
Baby it's like voodoo, voodoo, voodoo

Everything that you do, you do, you do
(I can't control it, she's taking over)
Baby it's like voodoo, voodoo, voodoo
(I can't control it, she's taking over)
Everything that you do, you do, you do
(I can't control it, she's taking over)
Baby it's like voodoo, voodoo, voodoo
(I can't control it, she's taking over)

No control,
I can't control it, she's taking over
I can't control it, she's taking over
I can't control it, she's taking over
I can't control it, she's taking over
