

# Deeper

Shawn Hook

You and me baby we got a condition  
Something is there but something is missing  
Spinning our wheels this cycle is vicious  
Dancing around what we're secretly wishin'

I keep telling myself that we're gonna grow closer but time  
Is something we're fighting and constantly hiding behind  
You're afraid of vulnerable but that's the stuff I wanna know

I wanna go deeper, into the fire, into the wild, wild, night  
Moving beneath ya, holding my breath, drowning in your twilight  
I wanna see ya out on the edge where we know it could hurt us  
I wanna go deeper, stop waiting for perfect  
Let me dive in and stop scratching the surface...

I wanna jump into all your madness  
Give me a chance take a run at your sadness  
Dance with our skeletons up on the mattress  
All of my issues all or your habits

I wanna go deeper, into the fire, into the wild, wild, night  
Moving beneath ya, holding my breath, drowning in your twilight  
I wanna see ya out on the edge where we know it could hurt us  
I wanna go deeper, stop waiting for perfect  
Let me dive in and stop scratching the surface...

I keep telling myself that we're gonna grow closer but time  
Is something we're fighting and constantly hiding behind  
You're afraid of vulnerable but that's the stuff I wanna know

I wanna go deeper, into the fire, into the wild, wild, night  
Moving beneath ya, holding my breath, drowning in your twilight  
I wanna see ya out on the edge where we know it could hurt us  
I wanna go deeper, stop waiting for perfect  
Let me dive in and stop scratching the surface...
