

Planet Earth

Shawn Hook

Love was a dream on planet earth
I fell through the seams on planet earth
We're so much more than what we're worth
Wasting away on planet earth

Down here on planet earth
No, we don't belong
We don't belong

Here on planet earth
Where we stay too long on the side of the sun
I'm making my way through the universe
Don't bring me down to planet earth

Ten thousand miles above the ground
We can be real; nothing's out of bounds
But down here on planet earth
No, we don't belong, we don't belong

Here on planet earth
Where we stay too long on the side of the sun
I'm making my way through the universe
Don't bring me down to planet earth
Don't bring me down to planet earth

Down here on planet earth
No, we don't belong
We don't belong

Here on planet earth
Where we stay too long on the side of the sun
I'm making my way through the universe
Don't bring me down to planet earth

Don't bring me down
Don't bring me down
Don't bring me down
Don't bring me down
