

# Rocks

Shawn Hook

Are we losing our faith?  
Is it all in my head?  
You've been feeling so distant  
Was it something I said?  
'Cause you're pulling away  
And you're getting defensive  
Is this some kind of game?  
To get my attention

Picturin' you getting love from someone is taking all the air right out of my lungs  
So tell me I'm crazy, tell me I'm making it up

'Cause I, I don't wanna be on the rocks  
I'd do anything to get us off  
I don't wanna change us, I don't wanna break up  
I just wanna take us off the rocks

I'm waving my white flag, I don't need to be right  
I just want you to know, that I'm not gonna fight

Picturin' you getting love from someone is taking all the air right out of my lungs  
So tell me I'm crazy, tell me I'm making it up

'Cause I, I don't wanna be on the rocks  
I'd do anything to get us off  
I don't wanna change us, I don't wanna break up  
I just wanna take us off the rocks  
And go back to the way it was  
Before we knew that we were in love  
I don't wanna change us, I don't wanna break up  
I just wanna take us off the rocks

How come sorry isn't fixing this like it used to?  
But I'm not giving in, no, I won't quit on us, us, us

'Cause I, I don't wanna be on the rocks  
I'd do anything to get us off  
I don't wanna change us, I don't wanna break up  
I just wanna take us off the rocks  
And go back to the way it was  
Before we knew that we were in love  
I don't wanna change us, I don't wanna break up  
I just wanna take us off the rocks  
I just wanna take us off the rocks  
I don't wanna break up, I just wanna take us off the rocks
