

# Flow

Shawn James

I woke up to find the earth was round one day  
And all around the world now, things began to change  
Never had I ever seen the sun  
Rise that way above the day to greet the dawn

And the earth shook beneath my feet  
And the storm raged through the night  
And I lost all that I had won  
Oh but I flowed like the river

Flow...

So you think you got it all figured out  
All this money in the bank and women all about  
Well now whatcha gonna do when your ship starts to sink?  
Caught in a monstrous sea and you won't be able to think

Yeah and it's there you'll learn what I know  
That all of this world will fade  
You gotta learn to let it all go  
Oh and flow like the river

Flow...
