

# Lead The Way

Shawn James

America, the beautiful, America, the great  
Land of the free, home of the brave  
Souls who find no peace of mind  
For what much feel like the thousandth time  
This freedom ain't what it seems

So give me the broken, you take the whole  
I'll show you something worth so much more  
Than a perfect figure, a frame of some sorta standard way  
They said a change was gonna come  
But I ain't seen nothing new under the sun  
If a change is to be, we better lead the way

How many times must we make the same mistakes?  
To the learn from the wrongs of the past?  
Just how long will it be till we realize the stakes?  
And stop bluffing with a withered, weaker hand

So give me the broken, you take the whole  
I'll show you something worth so much more  
Than a perfect figure, a frame of some sorta standard way  
They said a change was gonna come  
But I ain't seen nothing new under the sun  
If a change is to be, we better lead the way

So give me the broken, you take the whole  
I'll show you something worth so much more  
Than a perfect figure, a frame of some sorta standard way  
They said a change was gonna come  
But I ain't seen nothing new under the sun  
If a change is to be, we better lead the way  
If a change is to be, we better lead  
We better lead the way
