

Michelle's Song

Shawn James

You know you're all I got so darlin don't you ever let me go
I know you've been so true to me my love and that's all I'll ask of you
Friends have come and gone but you're still there hanging on
I'm never gonna leave
Forever we will always be

All these times they pass just like the wind
And everything will change
My love, I'll always be there by your side
Even when everything seems grey

All these times they pass just like the wind
And everything will change
My love, I'll always be there by your side
Even when everything seems grey

All these times they pass just like the wind
And everything will change
My love, I'll always be there by your side
Even when everything seems grey
