

## Omens

Shawn James

I got vultures circling round everywhere I go  
Those devils in the sky watching down below  
I don't lettem get me mad, I don't lettem bring me down  
It ain't the first time them kinda scoundrels been hangin around

This power, power attracts strange company

Now I been seeing red since the day that I was born  
Legends told of a giant beast that'd make your blood run cold  
I ain't got no time for worry, I ain't got no time for fear  
See me headed down your way, you better stay clear

This power, power attracts strange enemies

Let me tell you straight  
There's reason to this rhyme  
Stick around the likes of me  
You're damn sure to die

This power, power attracts strange casualties
