

When It Rains, It Pours

Shawn James

Trouble comes and trouble passes with the changing winds
Thought my luck had turned around, instead my luck had met its
end

Why's it always feel like when it rains it pours?

Found a dollar in my pocket and held it to the sky
Wind came and blew away my dollar in the blink of an eye

Why's it always feel like when it rains it pours?
Why's it always feel like when it rains it pours?

Hanging round with goodtime friends with not a care in mind
When the times got tough my friends were gone in the blink of a
n eye

Why's it always feel like when it rains it pours?
Why's it always feel like when it rains it pours?
