

Wild Man

Shawn James

My girl don't worry when I leave, she knows I'm a real man
She treats me right, gives me all her lovin while she can
And when I love it's like a runaway train
She calls me her wild man

Got a lot of problems but a bitch never been one
Especially when my baby got a loaded gun
Men may try but they never win
She's in love with a wild man

It takes a lot to try and live life as a free man
It's hard to find a place to call your own
You gotta tryna find a good good woman
And you'll never ever be left alone

It takes a lot to try and live life as a free man
It's hard to find a place to call your own
You gotta tryna find a good good woman
And you'll never ever be left alone
