

Bring It Back

Shawn Mendes

Takin it slow
Isn't easy if as far as you go
Is only half as far as you and I both know
Yeah

Comin out from above
A little something
And it's only because
I don't ever wanna see you in love
But I know

That you've been
Coming off strong lately
And I can feel it that
You been thinking that maybe
You got a, another shot at me
Thinking possibly
Somehow, but not now

And it's been spinning around like a hurricane
And the sound of the thunder
That's beatin my head to the ground
But I
I know

That I can't go back,
To this,
To her,
To what we used to have

It's black and burns,
My God this is so sad
It'll only make things worse,
If we bring it back
Woah, yeah yeah, ohhhh

And I mean if you believe,
That there is something still between you and me
And baby honestly, yeah
You're not the one for me

And I can't go back,
To this,
To her,
To what we used to have.

It's black and burns,
My God this is so sad,
It'll only makes things worse,
(If we bring it back) (4x)

If we bring it,
Back.
