Everywhere I Go

Shawn Mullins

A good bit of me sleeps underneath
In the bed of my soul, lying next to belief
If toss where I lay, I might turn her away
So I try to fall, still dreamin' someday I will

Wake up with you beside me
With all of your love inside me
So when I am gone it guides me on

Everywhere I go, you know
I take you with me, sweet darlin'
Everywhere I go, you know
I take you with me, yeah

A good bit of me keeps to the sky
On the back of a cloud, unaware of how high
If I stay where I lay, I might drift away soon
From the pull of the sun, I am full of the moon

But baby, you're the one who grounds me
When the sounds of this world surround me
Your love, it took a look and found me
Lost and on my own

Everywhere I go, you know
I take you with me, sweet darlin'
Everywhere I go, you know
I take you with me, yeah

And baby, I always try
Look at my life through open eyes
And baby, my dream came true
With the treasure I found inside of you

Everywhere I go, you know
I take you with me, sweet darlin'
Everywhere I go, you know
I take you with me, sweet darlin'

Everywhere I go, you know
I take you with me, sweet darlin'
Everywhere I go, you know
I take you with me, yeah

Everywhere I go
Everywhere I go
