

Dip when the mood don't feel right
I change like the colors of a sunrise
Not scared of the dark I'm a highlight
I do what I want to

Changes
Changing
On the daily
Watch me flip the pages
Flipping all the pages of my story
Weightless
I've been feeling weightless
Fresher than a daydream
Look at me
I'm changing right before me

I dip when the mood don't feel right
I change like the colors of a sunrise
Not scared of the dark I'm a highlight
I do what I want to

Stand tall cause I know what I been through
Talk Loud cause I know what I can do
Been down but I know how to get through
I do what I want to

I change with the vibe when I walk in
I'm chasing all that I wanting
I'm fire cause I know how to spark it
I do what I want to
Stay up and I brighten the room up
I trust how I shine like true love
Best part of the night like what's up
I do what I want to
