

No Secrets

Shawty Lo

I'll be as soon as I get through baby
I know what time it is
I don't know why you don't believe me here
They got, I won't tell you bullshit baby
Tango, what the hell is that
I gotta get you an iPhone baby
Shit I love you too

She really love me, I'm getting money
Our friends call me stupid, they said not to trust me
You know he a player, he state in the something
I tell her don't worry 'cause that I ain't nothing
I'm keeping no secrets
Ain't keeping no scheme to the money
So tell me what the fuck is wrong with that
I'm keeping no secrets
And now I gotta get back to the money
Don't trip I might have to holla back
I'm keeping no secrets

I'm getting this paper, no time for secrets
No time to be later
And I wanna see you know, but I'm weeping under sun
And I know the face watching looking over my shoulder
A dope boy for life, can't change me
If shit gon' bad than you can't blame me
You say you in love, girl I feel the same thing
But I got a naughty girl and a line of cocaine
I'm keeping no secrets you know what I do
Whenever you need me, girl I got you
But still asking what have I done for you lately
I tour all the day for you baby

She really love me, I'm getting money
Our friends call me stupid, they said not to trust me
You know he a player, he state in the something
I tell her don't worry 'cause that I ain't nothing
I'm keeping no secrets
Ain't keeping no scheme to the money
So tell me what the fuck is wrong with that
I'm keeping no secrets
And now I gotta get back to the money
Don't trip I might have to holla back
I'm keeping no secrets

Your friends say they hate me
I see the problem, they just wanna date me
But we could leave 'em on screaming fuck you, pay me
First class flight, to watch the fight in Vegas
You want to live a life, drive nice cars
You gotta earn first girl, you gotta go hard
I swear I'm gonna blow with the sofa and the home
The white girl be the one, she getting when the fun start
I'm keeping no secrets, don't take it the wrong way
I'm a take care of you, I love you the long way
So many ask what I have done for you lately
You've been around the world with Lo baby

She really love me, I'm getting money
Our friends call me stupid, they said not to trust me
You know he a player, he state in the something
I tell her don't worry 'cause that I ain't nothing

And now I gotta get back to the money
Don't trip I might have to holla back
