

Vampire Life

Shawty Lo

Hello,
You know I sleep in the day time my phone be outside
Yeah I dare one to sleep at 6 am
You know I love to have fun
I wish I could be Blay, but I ain't no daywalker

I live a vampire life I be on my grind
Hit the studio at night, hit the sun before we shine
I live a vampire life yeah it's on black dip
Man I love this shit so much
I just might cop a whip
I live that vampire life, that vampire life
I live that vampire life, that vampire life

I wake up in the evening, it's time to go to work
And my bitch I be home just before she go to work
I gotta get back to the money, cash
Get back on my grind, grind
Keep the clock ticking, 'cause life's a way to die
I hit the booth I meet her at the kush, I'm a fan
Crack a pussy for a foe, put some candy in that lane
Bitches in the tendant ye they fucking with the teen
Every goon that savour night, there's alot of niggas here
I like them girls, do whatever girls
How about I take you to my planet, Shawty's world
The sun is gonna rise so quit the wasting time
Keep on that stalling bitch you'll be the less reknown

I live a vampire life I be on my grind
Hit the studio at night, hit the sun before we shine
I live a vampire life yeah it's on black dip
Man I love this shit so much
I just might cop a whip
I live that vampire life, that vampire life
I live that vampire life, that vampire life

I'm vampin' I'm vampin' my prodigee is landing
Moon's up, goon's out flying with them cannons
When I drumroll and I gum blow like a rock band who's jamming
Two fift' fish spot broccoli and samon
Got a bad bitch that's with me
My top darlingleu lieutenant
Cut the mon cheese like mid flight, lunch time like midnight
Por-porcing out, jumping out
Some fly and big right, you know the kid he get right
We get it big and live right, live right
Should've told the bitch to meet Dracula
Flip cape like a spatula
Whip game spectacular
Them thick dame I tackle up
Bitch cra'she actin' up
I get checks I stack 'em up
And them big whips I lap 'em up

I live a vampire life I be on my grind
Hit the studio at night, hit the sun before we shine
I live a vampire life yeah it's on black dip

Man I love this shit so much
I just might cop a whip
I live that vampire life, that vampire life
I live that vampire life, that vampire life
