

# Fate Goes

James Shayfer

I've been waiting for this moment to arrive  
I can see you for the monster that you are  
A predator in the dark  
A beast without a heart  
I've come for you  
I've come for you

They say the road to hell is paved in good intentions  
But I have none to start  
So where am I then?

A predator in the dark  
A beast without a heart  
I've come for you  
I've come for you

I will surrender to the tide  
Let the water be my guide  
I am a wave on the ocean wide  
I will surrender to the tide  
Let the water be my guide  
I am a wave on the ocean

Fate goes as ever fate must  
Fate is the only one that's just and I trust  
Fate goes as ever fate must  
Ashes to ashes  
Dust to dust

It's been written in the stars that you would fall  
I'm certain that you won't fall quietly

A spineless creature in the dark  
A beast without a heart  
I've come for you  
I've come for you

I will surrender to the tide  
Let the water be my guide  
I am a wave on the ocean wide  
I will surrender to the tide  
Let the water be my guide  
I am a wave on the ocean

Fate goes as ever fate must  
Fate is the only one that's just whom I trust  
Fate goes as ever fate must  
Ashes to ashes  
Dust to dust

Fate goes as ever fate must  
Fate is the only one that's just and I trust  
Fate goes as ever fate must  
Ashes to ashes  
Dust to dust

Fate goes as ever fate must

Fate is the only one that's just and I trust  
Fate goes as ever fate must  
Ashes to ashes  
Dust to dust

Fate goes as ever fate must  
Fate is the only one that's just and I trust  
Fate goes as ever fate must  
Ashes to ashes  
Dust to dust

A predator in the dark  
A beast without a heart  
The same as me  
The same as me
