

Punish You

James Shayfer

I swear I'll leave a scar
Mark you for the beast you are
It won't be gentle, clean, or quick
You'll taste the blood upon my lips

I will feast upon this fire
I will swallow you entire

I will punish you
You belong to me
I will punish you
You belong to me

I swear I'll leave a bruise
I'll take the breath away from you
My heavy hands around your throat
I'll teach you what it means to choke

I will feast upon this fire
I will swallow you entire

I will punish you
You belong to me
I will punish you
You belong to me
I will punish you
You belong to me
I will punish you
You belong to me

We're all guilty of something
We're all guilty of something

We're all guilty of something
We're all guilty of something

I will punish you
You belong to me
I will punish you
You belong to me
