

Me And You

She & Him

Well I'm back in your good graces, again.
Remember when you told me that I was your only friend
well you made the best of this life where you never knew
one day from the next, dig your heels in a little girl
put them to the test
you gotta be kind to yourself.
you gotta be kind to yourself

well i heard you had the blues again
seems like all those little things add up in the end
well i know that you heard a lot about things you can't control
so many things we like to have, we just cannot hold.
you gotta be kind to yourself.
you gotta be kind to yourself.
you gotta be kind to yourself.
you gotta be kind to yourself
