

Just wanna be in a magazine  
The movie screen  
Staring back at you  
Something kind of magical  
Incredible  
You stayed away from the status quote  
The radio  
Is what you feel inside  
Something unforgettable, original  
Brand new on the bright light  
Standing in the spotlight  
Everything you could ever want

Have you play this game  
Let the rhythm take you away  
All until the music fades  
Just wanna feel like a super star  
A work of art just waiting to be seen  
Something kind of magical,  
Phenomenal  
Just gotta open lift your eyes  
And look outside is what the world could be  
A moment unforgettable and unbelievable  
Brand new on the bright light  
Standing in the spotlight  
Everything that you could ever want

Have you play this game  
Let the rhythm take you away  
All the way until the music fades  
Take your breath and all [?]  
Brand new on the bright light  
Standing in the spotlight  
Everything that you could ever want

Have you play this game  
Let the rhythm take you away  
All until the music fades
