

A Love Song For A Mermaid

Shed Seven

And baby
Keep an eye on the ocean
Controlling the motion
Follow devotion.

And save me
I'm lost here without you
Stuck in a sand dune
Lazy, like a half-moon.

Your love keeps surrounding me
An underwater symphony
A love song for a mermaid, don't you know?
You carry the weight of the ocean
You're running the show
So take me where you go.

And baby
Keep an eye on the ocean
Controlling the motion
Following devotion

And it's strong glue
Sticks in any weather
That's holding us together
I'm hanging on for ever.

Your love keeps surrounding me
An underwater symphony
A love song for a mermaid, don't you know?
You carry the weight of the ocean
You're running the show
So take me where you go.

Your love keeps surrounding me
An underwater symphony
A love song for a mermaid, don't you know?
You carry the weight of the ocean
You're running the show
So take me where you go.

You carry the weight of the ocean
You're running the show
So take me where you go.

Take me where you go.
