

## Barracuda

Shed Seven

It's more than I can take  
My body's changing shape  
It's keeping me awake  
It's more than I can take

It's more than I can do  
Your body's changing too  
But what's that got to do  
With staying away from you?

Something's happening next door  
I can hear it  
Somebody's coming back for more  
Can you hear it?

It's more than I can do  
Your body's changing too  
But what's that got to do  
With staying away from you?

Something's happening next door  
I can hear it  
Somebody's coming back for more  
Can you hear it?

Something's happening next door  
I can hear it  
Somebody's coming back for more  
Can you hear it?

Something's happening next door  
I can hear it  
Somebody's coming back for more  
Can you hear it?

Something's happening next door  
I can hear it  
Somebody's coming back for more  
Can you hear it?
