

## In Command

Shed Seven

Hello, mellow  
I haven't met you yet  
Hazy, lazy  
Don't you think that you'll forget your...?

Now you're in command  
You got the best thing ever planned  
And your secret's safe with us  
Just like it always was

How can you blow the world apart?  
And will you hold a place in your heart?  
And will you leave that space for me?

Crazy, lady  
You still believe you're strong  
Maybe, lately  
I've been wrong for far too long

You're weary, and leery  
Never nowt like this before  
You're hazy, lazy  
Don't you think that you'll forget your...?

Now you're in command  
You got the best thing ever planned  
And your secret's safe with us  
Just like it always was

How can you blow the world apart?  
And will you hold a place in your heart?  
And will you leave that space for me?

How can you blow the world apart?  
And will you hold a place in your heart?  
And will you clear the way for me?

Now you're in command  
You got the best thing ever planned  
And your secret's safe with us  
Just like it always was

How can you blow the world apart?  
And will you hold a place in your heart?  
And will you leave that space for me?

How can you blow the world apart?  
And will you leave a space in your heart?  
And will you clear that way for me?
