

# Out By My Side

Shed Seven

Out By My Side

Yeah

When will you come outside?  
Where do you think you can hide?  
And when the Sun turns to night  
You keep your curtains shut tight  
Where is the trust in yourself?  
I don't have claims on your wealth anymore

How can you stay locked inside?  
You should be out by my side

How do you think you'll survive?  
When will you learn you're alive?  
And when the wind blows you're mine  
I've made your door my shrine  
Where is the trust in yourself?  
I don't have claims on your wealth anymore

How can you stay locked inside?  
You should be out by my side

How can you stay locked inside?  
You should be out by my side

How can you stay locked inside?  
You should be out as my bride
