

Real Love

Shed Seven

Real love is so hard to find
Real love the reciprocated kind (you say)
One swallow doesn't make a summer
Real love is no friend of mine
Friend of mine

Hold the front page, this is the modern age
Dig your own grave, this is the modern age
You'll get by, la la la la la
Hold the front page, this is the modern age

Real love the lasting kind
Real love it's so clandestine (I say)
Birds of a feather they should flock together
Real love is no friend of mine
Friend of mine

Hold the front page, this is the modern age
Dig your own grave, this is the modern age
You'll get by, la la la la la
Hold the front page, this is the modern age

I got the feeling, that we won't last the night
I got the feeling, that we won't last the night

Real love is so hard to find
Real love the intoxicating kind
One swallow doesn't make a summer
Real love has been dimmed by time
Dimmed by time

Hold the front page, this is the modern age
Dig your own grave, this is the modern age
You'll get by, la la la la la
Hold the front page, this is the modern age
This is the modern age
This is the modern age
This is the modern age
