

## The Skin I'm In

Shed Seven

It's so hard to believe  
That in time you will leave  
I should never be alone

For the sake of your health  
Keep your thoughts to yourself  
I won't change the skin I'm in

You'll get no sympathy  
When in my company  
You should always bare your soul

There are things we must face  
Every woman needs her space  
But to leave would be untrue

And if you keep your thirst  
You will always drink first  
I won't change the mood I'm in

You'll get no sympathy  
When in my company  
You should always bare your soul

You're in my century  
This is my history  
And I'm always being sold

It's so hard to believe  
That in time you will leave  
I should never be alone
