

Love Me With Freedom

Sheena Easton

Love me with freedom, not in chains
Don't try to own me
Love don't work that way
I want to get closer baby day by day
So just love me with freedom
And I'll stay

I'm still around
I'll stay by your side
I'll give you the kind of love
You never had in your life
But please don't think
that gives you the right to tell me how to act
Don't tell me how to live my life

Oh baby you must understand
You're never gonna change the way I am
So please don't try to pin me down
Let me go and you know
That I will stay around
You've got to

When you're in love
You got to have trust there is no compromise
Boy when it comes to us be good to me
And I'll be good to you
And when I need the room
Boy you know what to do

Cos trust is what it's all about
My heart can't hear a word
When you scream and shout
So please don't try to fence me in
That's a game you can play
But you can never win
You've got to

Gimme back my freedom
I want my freedom

Oh baby you must understand
You're never gonna change the way i am
So please don't try to pin me down
Let me go and you know
That I will stay around
You've got to
