

Now That My Baby's Gone

Sheena Easton

How can I get past the pain
Looking back over yesterday
Am I to blame
You know it don't feel
feel the same feeling lonely without you
Now I'm feeling so afraid yeah

I can still hear those words so clearly
You promised me love that would always stay with me
Now you're singing me a different song
What else in this world could go wrong

Now that my baby's gone
It's hard to go on
But what can I do
How can I live without you
Lord knows I've tried
Lord knows that I've cried
I just can't go on
Now that my baby's gone

Every breath that I take
One less beat my heart makes
Cause it's you my heart is missing
I would give everything
Just to hear you say
That you love me again and again

I can still hear those words so clearly
You promised me love that would always stay with me
Now you're singing me a different song
What else in this world could go wrong

Time and time again
I just don't understand
How could leave me baby this way
I just can't believe it
No I can't deceive it
Now that you're gone
Now that you're gone it's hard to go on
