

## Koo Koo

Sheila E.

Come see Koo Koo man  
Doing very worst he can  
See him spend his lonely dime  
Things design the Koo Koo time

Koo Koo, Koo Koo  
Koo Koo, Koo Koo

Everybody, come see Koo Koo girl  
She can't resist the Koo Koo world  
To young to know better, to old to refuse  
First she had an abortion, now she's got the blues (She got the blues)  
Yes

Come and dig the Koo Koo war  
Rumor has, it got started 'cause our leaders got bored  
New toys with a laser teach children to kill  
Who knows when they're older, maybe they will  
Nothing gained, paradise lost  
Koo Koo's the trip and death is the cost  
It's your world... for a little while

Peace, mother, brother, peace of mind  
We got to love one another all the time  
'Cause a kiss on the lips is better than a knife in the back  
Can you get to that or is your blue train runnin' on a Koo Koo track?  
You're to laxed, to lazy to dig all the facts  
What it is y'all? We need a new plan, new plan of attack  
Everybody jam, we've got the knack  
Let's party y'all, let's party y'all  
'Cause a kiss on the lips is better than a knife in the back  
Now everybody say it

Koo Koo, Koo Koo  
Koo Koo

It's your world (Your world)  
For a little while
