Loverboy

Sheila E.

A night out on the town is a very rare occasion for you and me
Why do I bother to tag along as decoration for your sleeve
(Huh. No, no-no)
Tryin' to make a good impression for every guy that passes by
(Loverboy)
If you leave me standing like a fool forever go your bags and I
Baby come on

Loverboy
Don't you come running back to me
With an ego to please
Loverboy
Time has come I must break free

If your friends are first priority I'm sick of guessing where I come in
(Come in, come in, come in)
I wanna be by the majority not just an occasional whim
Come on baby
Get your act together and
Come back to the real world
(I wanna be your girl)

I'm not here for convenience
I wanna be freak 'um lovergirl
Woo-hoo

Loverboy
Don't come running back to me
With an ego to please
Loverboy
Time has come I must break free
(Boy, boy)

Loverboy I want you to
Work your body, work your body
Make sure you don't hurt body
Ooooh-ahhh
Work your body, work your body
Make sure you don't hurt nobody

Break it down
You come here
Loverboy this girl can't play your fool for eternity
Loverboys I'm through with you and your lies
Of loving me

Oooh, loverboy, loverboy
Loverboy, don't you come (don't you come)
With an ego to please
Run-in back
(Loverboy)
Time has come I must break free
Loverboy
I must break free
Loverboy
