What'cha Gonna Do

Sheila E.

Tryna be a gentleman for you is a natural act
Don't tell me that you love me
I hate to think that I'm breaking your back

In my life
I can see
I'm more than a baby that you want me to be
So if you want us to last
You gotta get off of your attitude
You know that it's true

Maybe we should be together
I know we can last forever

Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know
Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know

If you want another
Boy, you've got to make up your mind
You're just a door-to-door lover
What is it that you're tryna find

In my heart
I love you
But I don't like how you treat me
It ain't cool
Such a cold hearted man
Why is it so hard to understand
I know that you can, oh

I'd do anything for you
Just tell me baby
What'cha gonna do

Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know
Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know

(Boy, what'cha gonna do)

Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know
Are you gonna leave me?
Are you gonna go?

If you're gonna quit me
At least just let me know

Are you gonna leave me?
Are you gonna go?
If you're gonna quit me
At least just let me know
Are you gonna leave me?
Are you gonna go?
If you're gonna quit me

I gotta go
