

Cherry Bomb

Shekhinah

Skin against skin
You should stay under me
Under me
Said it's love for me here in the city
But you look good when you leave

Lover of mine
You hate when I sleep
Cause it's day over there in Wisconsin
But it's late here by me
It's late here by me

Come home to me
You know I'm the only way to go for ya just
Come home to me
You know know I'm the only one who knows what you want

Come home to me
You know I'm the only way to go for ya just
Come home to me just
Come home to me just

We said goodbye
So many times I
I think it's a lie
Whether it's time I
Just wanna lay in your life yeah
Running away by your side
Bathe in your eyes

So many ways that I
Love you
Can't be everything
I'll be who I am
Leave our footprints in the sand
Tell me that you can come home
Let's stick to the plan I'll be waiting
Call me when you can I'll be patient just

Come home to me
You know I'm the only way to go for ya just
Come home to me
You know know I'm the only one who knows what you want

Come home to me
You know I'm the only way to go for ya just
Come home to me just
Come home to me just

The sin in your eyes
Could kill all the time
Won't you stay a while with me

I know you got plans
But I've cancelled all mine
So just stay a while with me
