

Fixate on you  
I don't debate with you  
I look a way for you  
Team player!  
I lose the weight for you  
Look amazed for you  
Celebrate with you  
Team player!

Learning to love  
Is a story of us  
Up till we're down  
And I'm learning to love you over again  
And again, wish it never ends  
If you love me why you put me through a test?  
Tell me why you leave me in a wreck?  
No I only wanna do my best

Baby, when I let you crash, really wasn't in my plan  
I'm a, team player (Only wanna do my best)  
When you let them laugh, still it never made me mad  
I'm a, team player

Learning to love you  
Love you  
Only wanna do  
My best to, learn to love you  
No I only wanna  
Only wanna do, my best  
Learning to love you

My heart's bleeding, you're leaving  
Leaving, now you're leaving  
But really no escaping truth  
What kind of love? (What kind of love?)  
Got no time for love (Got no time for love)  
There were signs enough (There were signs enough)  
Til our time is up (Til our time is up)

Baby, when I let you crash, really wasn't in my plan  
I'm a, team player (Only wanna do my best)  
When you let them laugh, still it never made me mad  
I'm a, team player

Learning to love you  
Love you  
Only wanna do  
My best to, learn to love you  
No I only wanna  
Only wanna do, my best  
Learning to love you

Baby your hair make me confused  
When you hit me up it becomes my muse  
Nothing else matters as I can't choose  
L is for Love, I cannot lose  
When you go, I get the blues

Baby me and you we such a mood  
And I don't mean to be rude  
Need to switch it up interlude  
And if I never mentioned, ten out of ten we out of question  
Love you so long, can I get an extension?  
Learning to love you with all the tension  
If you really with it baby we can go  
Coldness in the city baby we can snow  
Boat on the waves baby we can row  
And you got me so high even when I'm low

Baby, when I let you crash, really wasn't in my plan (When I let you crash,  
crash)  
I'm a, team player (When I let you crash)  
When you let them laugh, still it never made me mad  
I'm a, team player

Learning to love you (Team player)  
Love you (Team player)  
Only wanna do (Team player)  
My best to (Team player), Learn to love you (Team player)  
No I only wanna (Team player)  
Only wanna do (Team player), My best (Team player)  
Learning to love you (Team player)
