

Into The Jungle

Shekhinah

Like a few trees
And a light breeze
With some sight seeing
And I'm yours, I'm yours yeah
I like it yeah
Like a few trees
And a light breeze
With some sight seeing
And I'm yours
But I like it, I kinda kinda like it

Not a new thing
Just a new scene
With a old feel
Down in the jungle yeah, down in the jungle
(Down in the jungle)
You know how it feels yeah
You know how it feels yeah
Down in the jungle yeah, down in the jungle
No need to impress me
Let the nature reduce our stress yeah
The simpler the pleasure, the best
I don't give into the rest

Like a few trees
And a light breeze
With some sight seeing
And I'm yours, I'm yours yeah
I like it, yeah
Like a few trees
And a light breeze
With some sight seeing
And I'm yours
But I like it, I kinda kinda like it

Ride da-die
Cause you my ri-dah-die
Till we touch the sky-ah-ie
You'll be mi-ah-ine, yeah yeah
Like a few, Like a few

Boy you never mind another trip down to the city
For what we wanna do
A quiet space is more the place
If we can get a taste of outta space
And I'm so sure yeah
More than before
So into the jungle we crawl yeah
You could be the prince, I'm the princess
I'm waiting on your word on a white dress
I'm struggling to say the words "goodnight"
When, ah, you dont really want me outta sight
And I, I do better when I'm by your side yeah
You know yeah, together we float
Loving that green window
Yeah you know yeah, what I'm all about
And that's all that counts

That's all that counts, That's all that counts

Like a few trees
And a light breeze
With some sight seeing
And I'm yours, I'm yours yeah
I like it, I kinda kinda like it

Ride da-die
Cause you my ri-dah-die
Till we touch the sky-ah-ie
You'll mi-ah-ine, yeah yeah
Like a few, Like a few

Aaaah-ah-ah-ah
Into the jungle we crawl
Aaaah-ah-ah
Into the jungle we crawl
Aaaah-ah-ah-ah
Into the jungle we crawl
Aaaah-ah-ah-ah
Like a few trees
