

Not Safe

Shekhinah

You were my amor, yeah
Gave you my all
Still we slip and we fall
We were hand in hand, I don't understand, understand
If it's not you, I don't want no one, but you
Beat myself up just for you

For all of the things that I do
All of the flames that I grew
All of the things that I threw
Somethings you can't undo
Somethings you can't undo

Feels like I'm in space
Loneliest place I have known
Feels like my mistake
Still, love him either way
I, love you either way you choose to go

But I'm not safe
All of the things that I do
All of the flames that I grew
I'm not safe alone (Trouble in paradise)
Somethings you can't undo
I'm not safe
All of the things that I do
All of the flames that I grew (Trouble in paradise)
I'm not safe alone (Trouble in paradise)
Somethings you can't undo
