

Risk

Shekhinah

I don't want to be confused
Free fall, pull a parachute
Cupid let your arrow shoot
Oh no, I'm back into you

Bungee with my heart
I don't want the risk, I
Don't want to be caught up
Don't want to commit
If I jump in with my heart
Please understand the risk
Please just try be cautious
Before we dive right in

I'll take the risk, the risk
The risk with you
If you wish, you wish
If you want to
I'll take the risk, the risk
The risk with you
If you wish, you wish
If you want to

Just stand there, you're feelin' me
This my King but I'll wait and see
Steal my kiss 'cause I don't bite
This my thing for the whole night
Know my body too bad, though I don't lipo
Even this side that I don't like oh
I'm just sayin' I don't mind
If this my thing for my whole life

Bungee with my heart (Bungee)
I don't want the risk (Bungee with my)
Don't want to be caught up (Baby Bungee)
Don't want to commit (Bungee with my)
If I jump in with my heart
Please understand the risk (Bungee)
Please just try and be cautious (Bungee with my)
Before we dive right in (Right in)

I'll take the risk (I'll take it)
The risk (I'll take it)
The risk with you (Baby, you know that I'll take it)
If you wish (Wish)
You wish (You take it)
If you want to (Baby, you know that I'll take it)
I'll take the risk (Take it)
The risk (I'll take it)
The risk with you (Baby, you know that I'll take it)
If you wish (Take it)
You wish (Take it)
If you want to

Say my body too bad though I don't lipo
Even this side that I don't like oh
I'm just sayin' I don't mind oh

If this my thing for the whole wide world, ooh
Say my body too bad though I don't lipo
Even this side that I don't like oh
I'm just sayin' I don't mind oh
If this my thing for the whole wide world, ooh

I, I, I don't want to be confused
I, I, I don't want be confused
