

Steady

Shekhinah

Called you again
Can we make amends
Outside of what's been said
I still want you in my bed
Said what I said
You could come and let you heart rest
Speak to someone who knows you best

I
I really tried
To get you off my mind
Take it one step at a time
You and I
Been doing this our whole lives
Do or die
I'm never gon' leave your side

I'm ready ready ready
This time we're going steady steady steady
I know I said that we're done
I lie like everyone
I said that we're done
But look how far we've come
And now
Now we're doing so amazing
So amazing
Now we're doing so amazing

Holding out your hand
For a second chance
Hoping it will last
But we fall like avalanche, avalanche

When we touch down
Feet on ground, you give me the run-around
See we break up only to make up yeah
Yeah 24/7 you're on my mind
Still got a lot of love for you, I do
Wanna see the light with you yeah
Wanna build a life with you yeah

Ready ready ready
This time we're going steady steady steady
I know I said that we're done
I lie like everyone
I said that we're done
But look how far we've come
And now
Now we're doing so amazing
So amazing
Now we're doing so amazing
So amazing
