

## Even Angels

Shelby Lynne

You went and did it, big time  
You let your heart get in the way, what a crime  
You are so innocent, can't tell a lie  
But you know  
Even angels fall down sometime

You're like a little bird on a wire  
Hanging on to earth spinning wild  
But hurt cut you loose and you fell into the fire  
You know  
Even angels fall down sometime

Your lovely wings flew straight into a cloud  
The weather changed and brought you to the ground  
They're in need of repair and some tender love and care  
True love waits for you up there

Ooh it's a miracle that you survived  
When you put your soul out there like a lion  
You wear a tender sword close by your side  
But you know  
Even angels fall down sometime  
You know  
Even angels fall down sometime  
But you know  
Even angels fall down sometime  
Yeah, even angels fall down sometime
