

# I Can't Imagine

Shelby Lynne

I can't imagine how you're feeling  
I can't imagine what's been going on  
I know it's hard for you this evening  
To cry the blues out loud until they're gone

Nothing I can say could ever change it  
I ain't afraid of your pain  
I can heal it baby  
The road out of here is golden omen now  
Wait out the moon in this riverbed tonight

I can't imagine how you're feeling  
I can't imagine what's been going on  
I know it's hard for you this evening  
To cry the blues out loud until they're gone

Walking in the shadows of blooming beauties  
Facing the few who held onto me baby  
The voices pass fading off the coast  
The desert skies calling me home

I can't imagine how you're feeling  
I can't imagine what's been going on  
I know it's hard on you this evening  
To cry the blues out loud until they're gone  
Cry the blues out loud until they're gone  
Cry the blues out loud until they're gone
