

## Old Times Sake

Shelby Lynne

Before you go and walk out on me  
Take a look around and tell me what you see  
'Cause here I stand like an open book  
Is there something here you might have overlooked

And it would be a shame if you leave  
And find that freedom ain't what you thought it would be

The years we had were not all bad  
In fact I know the good outweighed the bad  
And now you say that you've grown tired  
And you want to be by yourself a while

It would be a shame if you go  
And find that freedom was a long time ago

I know you can't stand for chains to bind you  
But they just keep on driving us apart  
And you could go where I would never find you  
But could you go far enough to get away from you're heart

So one more time for old times sake  
Come and lay your head upon my chest  
Please don't throw this moment away  
We can forget the bad and take the best

And if you don't have nothing left to say  
Let me hold you one more time for old times sake  
And if you don't have nothing left to say  
Let me hold you one more time for old times sake
