Something to Be Said About Airstreams

Shelby Lynne

The longer I live the more I'm amazed
How folks get hooked on the latest craze
I want to get away from all the hassles
But I'm a little burned out on castles
Guess it's that time again
Time to be free again

There's something to be said about airstreams
A rolling home made out of silver
There's something to be said about airstreams
Aww, who'da thought art, was a trailer

Over the hill, a paper sack
I want me a big ol' Cadillac
To haul all my demons and dreams and
Listen to silence
Maybe I'll stop in needles
Say hello to my people

There's something to be said about airstreams
A rolling home made out of silver
There's something to be said about airstreams
Aww, who'da thought art, was a trailer

When the sun hits her right
She'll blind you with her light
A beacon of royalty, ooh
Yeah, she's like a Van Gogh
Or an old Picasso
Oh, what a sight to see
