

Toss It All Aside

Shelby Lynne

We laughed till sunrise,
We stayed up until dawn.
Scared of missing each other
Hardly slept at all.
I remember your feelings
Matching up with mine
Loving on your body
Loving you love mine
But now you left me, now you're gone
Now I gotta toss it all aside

Things we once believed in
I don't know them at all
Words and pretty letters
Bring no comfort at all
If I could reminisce
And recall your happiness
If I could put behind me
All of my regretfullness
But now you left me
Now you're gone
Now I gotta toss it all aside

Those dishes in the sink I can hardly think
It's like you're almost standing there
My heart is full of holes and I can't find my clothes
And my mind is feeling faint it tells no lies.

I can't get you off my devastated state of mind
I can't think of anything but the thing you left behind
I'm falling down in pieces and I'm not thinking clear
Without you here

My soul is crying time to close the door
Can't face the morning, the sun don't rise anymore
That cannon in the closet calls me over there
Begging me to use it and dispose of my despair
Cause now you left me
Now you're gone
Now I gotta toss it all aside
Oh now you left me
Now you're gone
Now I gotta toss it all aside
